

Pete Canavan

Pete@PeteCanavan.com / PeteCanavan.com

Safety Expert Pete Canavan makes people safer in minutes, not months by providing actionable tips, techniques and tactics that audiences can put to immediate use to enhance both their online security and offline safety.

Pete brings over 25 years experience as a Cybersecurity Consultant and Martial Artist to organizations looking to reduce risk and liability, rapidly improve the safety and security of their employees, and develop a safer and more productive work environment through increased awareness and confidence, proper mindset, and attitude.

Presentation Topics *(visit website for more)*

The Warrior Mindset

Developing the Mental Tenacity to Break Through Obstacles and Limitations

Everyone is faced with obstacles in life - it is the ones who have the "Warrior Mindset" that allow them to go through, around, under or over anything that stands between them and their goals. Your audience will identify with various traits of the warrior including patience, harmony, fortitude, courage, innovation, respect, discipline, teamwork and focus and learn how to apply them to everyday challenges at work & home.

Corporate Insecurity

Securing the Weakest Link...and It's Not Your Technology

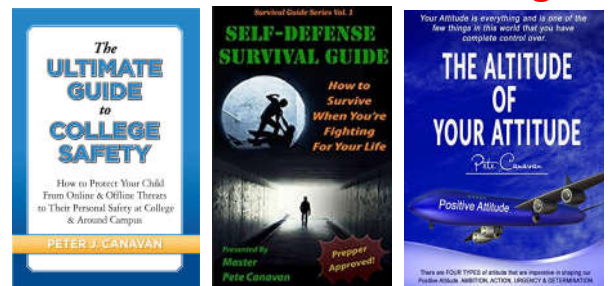

After decades of work as an IT consultant and self-defense instructor, this presentation draws on real-world experience, examples and a bit of humor to illustrate the many security issues facing businesses today and how to address them.

Workplace Violence

Recognizing the Threat and What To Do About It

The harsh reality is that violence exists in the workplace in ways that were not even conceived of a generation ago. Lone wolves, terrorists, and active shooters were not something that businesses needed to worry about. This presentation addresses both the ongoing and emerging threats to employee safety and corporate longevity.

What Clients Have to Say...

"Thank you for being with us. Great reviews plus many positive remarks about your presentation! Again, thank you so very much."

Dr. David Long, Safe Schools Conference

"Attendees always come away with solid ideas they can start using immediately. You open eyes every time you speak at one of our events. It doesn't take much more than awareness, education and effort to improve safety & security."

Robert Scocozzo, Scent-Sations, Inc.

"The little extras done as part of your presentation were unique and provided tangible, real benefits for our attendees."

Tom Mooney, Megcomm Productions
